PROFESSIONAL SUMMARY

Experienced and results-driven Software Developer with a strong background in C#, ASP.NET Core, and Entity Framework. Adept at designing, developing, and maintaining scalable web applications that are robust, efficient, and easy to maintain. Proficient in WordPress script automation, WooCommerce, Entity Framework, and building full-stack applications using Blazor and Razor Pages. Highly skilled in backend and frontend technologies, with international experience on projects across various sectors, including banking, e-commerce, and manufacturing. Known for problem-solving, collaboration, and delivering high-quality solutions.

TECHNICAL SKILLS

- **Programming Languages:** C#, JavaScript, SQL, HTML, CSS
 - **Frameworks & Libraries:** Entity Framework, ASP.NET Core, Razor Pages, Blazor, Angular
 - **ERP Software:** Epicor ERP, Microsoft Dynamics
 - **CMS & E-Commerce Platforms:** WordPress (Automation, Theme/Plugin Development), WooCommerce
 - **Databases:** SQL Server, Data Integration
 - **Development Tools:** Visual Studio, Git, TFS, Azure DevOps, Postman
 - **Design Patterns:** MVC, Singleton, Repository, Dependency Injection, Unit of work
 - **Web Services & APIs:** RESTful APIs, WCF
 - **Other:** Containerization (Docker, Kubernetes), CI/CD
-

PROFESSIONAL EXPERIENCE

ERP Developer (Epicor)

Kairos Solutions, Australia | *November 2024 – Present*

- Developed and customized backend solutions for **Epicor ERP systems**, improving scalability and functionality.
 - Integrated third-party systems to extend ERP capabilities and streamline business workflows.
 - Automated **WordPress scripts** to enhance content management and reduce manual tasks.
 - Integrated **WooCommerce** for product catalog management, user authentication, and order processing.
 - Collaborated with international teams to integrate ERP modules across multiple business units.
-

Software Developer

Bahria Town, Lahore | *June 17, 2024 – Present*

- Built and customized backend systems using **.NET 9 Core** for a large-scale **real estate platform**, enhancing performance and scalability.
- Integrated **Single Sign-On (SSO)** for secure, centralized authentication across system modules.
- Worked with third-party tools (e.g., Print Save Track) and international teams for cross-module integration.
- Developed features including **plot merging**, **data filtering**, and **cyclic security protocols**.
- Processed large volumes of legacy data for the Design Wing and built **SQL-based services** using **Clean Architecture**.

- Deployed applications on **virtual machines (VMs)** and developed modular services for **plot management, ownership tracking, and reporting**.
-

Software Developer

Dukanlay Solutions, Lahore | *April 2023 – November 2024*

- Led development and maintenance of scalable web applications using **ASP.NET Core, Entity Framework, and SQL Server**.
 - Designed and implemented responsive **Razor Pages** to enhance user experience and interface performance.
 - Built intuitive UIs with **React** and **ASP.NET Core**, improving overall platform usability.
 - Collaborated with cross-functional teams in an **Agile** environment, delivering reliable and efficient software solutions.
-

Online Development Projects – Remote

Freelance Developer | Mid-2022 – March 2023

- Developed web applications and small-scale software solutions using **.NET, C#, Angular, and SQL**.
 - Gained practical hands-on experience before official professional engagement.
-

PROJECTS & CONTRIBUTIONS

- **BankMind AI Project:** Contributed to AI-driven banking solutions. Enhanced backend performance for large datasets. Used React & ASP.NET Core for dynamic UI. [Link](#)
- **Galvin Project (Australia):** Optimized backend systems for Galvin, creating user-friendly interfaces. [Link](#)
- **Caterlink Project (Australia):** Contributed to online food service platform, integrating WooCommerce and automating order management. [Link](#)

- **C & W Services Project (Australia):** Developed web applications for internal workflow optimization. [Link](#)
 - **United Fasteners Project (Australia):** Enhanced e-commerce operations with WooCommerce integrations and automated product listings. [Link](#)
 - **MIT Semiconductor ERP Project (Singapore):** Customized ERP solutions, improving system integration and business processes. [Link](#)
 - **Orbital UAV Project (Australia):** Enhanced backend and materials planning systems for UAV production. [Link](#)
 - **Bahria Town Design Wing Project (Lahore):** Developed backend systems for real estate management, plot merging, and reporting modules. [Link](#)
 - **CRM Project:** Developed lead management, customer communication, and analytics dashboards for improved client interaction. [Link](#)
-

EDUCATION

- **Bachelor of Science in Computer Science (BSCS)**
Virtual University of Lahore (2024) | CGPA: 2.8/4.0
 - **FSC**
DPS Sahiwal (2019) | 958/1100 (A)
 - **Matric**
Beacon House School System (2017) | 1045/1100 (A+)
-

SOFT SKILLS

- **Problem-Solving:** Identifying and resolving technical challenges efficiently.
- **Communication:** Strong verbal and written communication skills, especially for technical documentation.
- **Collaboration:** Proven ability to work effectively in international teams.

- Time Management: Prioritize tasks and manage multiple projects to meet deadlines.
